

Have you heard of  
**DOMESTIC, INTERNATIONAL - TERRORISM?**

It is real - a crime done invisibly – right under our noses – often with proof hard to get!

**My friend DIED, driven to SUICIDE because NO-ONE took her seriously**

**She complained of:**

Severe headaches & unexplainable body pains – unbearable at times  
Electrical shocks pulsating into her body from some remote source  
Burnt internally to the extent the body often felt deeply bruised as well  
Health deteriorating majorly-Yet many tests showed nothing so she was labelled as-delusional!

**Also on a regular basis:**

Un-provable break-ins – would come home and notice personal items had been moved  
Electrical items randomly switching themselves on/off  
ODD people began to follow her on the street-doing a set body movement upon eye contact

**She begged me to believe/help her – BUT I continued to ignore her -**

“Scared I would look like a fool if she wasn’t telling the truth.

As her story sounded too far-fetched to be true!”

**I HAVE SINCE FOUND OUT – she was in-fact – TELLING the TRUTH**

Articles, Declassified docs, Histories of un-ethical practices, Common tactics, Testimonies/reports from specialists who have worked with these remotely run technologies & Some victim testimonies below at:-
